Contents

VOLUME 25, NUMBER 1, MARCH 1986

R.L. Moe. *Hymenocladiopsis crustigena* (Rhodymeniaceae), a new genus and species of marine Rhodophyceae from the Antarctic Peninsula . . . 1–9

R.E. De Wreede. Demographic characteristics of *Pterygophora californica* (Laminariales, Phaeophyta) 11–17

P.S. Rivera, H.E. Gonzalez and H.L. Barrales. Cingulum and valve morphology of *Pseudohimantidium* Hustedt & Krasske (Bacillariophyceae) . . . 19–27

H. Nozaki. Sexual reproduction in *Gonium sociale* (Chlorophyta, Volvocales) 29–35

G.P. Felicini et C. Perrone. Une étude en lumière polarisée sur le parcours des hyphes dans le thalle de *Pterocladia capillacea* (Gelidiaceae, Rhodophyta) 37–46

G.T. Kraft. The green algal genera *Rhipiliopsis* A. & E.S. Gepp and *Rhipiliella* gen. nov. (Udoteaceae, Bryopsidales) in Australia and the Philippines 47–72

Y. Rincé et G. Paulmier. Données nouvelles sur la distribution de la diatomée marine *Coscinodiscus wailesii* Gran & Angst (Bacillariophyceae) . . 73–79

E. Villouta and B. Santelices. *Lessonia trabeculata* sp. nov. (Laminariales, Phaeophyta), a new kelp from Chile 81–86

A.J.K. Millar. *Baldockia verticillata* (Griffithsieae, Ceramiales), a new red algal genus and species from eastern Australia 87–97

S.M.P.B. Guimarães, M.R.A. Braga, M. Cordeiro-Marino and A.G. Pedrini. Morphology and taxonomy of *Jolyna laminarioides*, a new member of the Scytosiphonales (Phaeophyceae) from Brazil 99–108

P.L. Walne, Ø. Moestrup, R.E. Norris and H. Ettl. Light and electron microscopical studies of *Eutreptiella eupharyngea* sp. nov. (Euglenophyceae) from Danish and American waters 109–126

In memoriam 127

Book reviews and publications received 129

Announcements 131

Published 24 March 1986

VOLUME 25, NUMBER 2, JUNE 1986

R.E. Norris. Studies on *Crouania franciscii* (Ceramiaceae, Rhodophyta) from South Africa and *C. willae* sp. nov. from New Zealand 133–143

G.M. Gargiulo, F. De Masi and G. Tripodi. Structure and reproduction of *Halymenia asymmetrica* sp. nov. (Rhodophyta) from the Mediterranean Sea 144–151

J.-M. Robert et S.Y. Maestrini. Absorptions simultanées des ions NO_3^- et NH_4^+ par trois Diatomées de claires à huîtres, en culture axénique 152–159

E. Gordon-Mills and R.E. Norris. *Shepleya elixithamnia,* a new species of Ceramiaceae (Rhodophyta) from South Africa 160–167

W.A. Nelson and K.G. Ryan. *Palmophyllum umbracola* sp. nov. (Chlorophyta) from offshore islands of northern New Zealand 168–177

L. Van Thinh, D.J. Griffiths and H. Winsor. Ultrastructure of *Symbiodinium microadriaticum* (Dinophyceae) symbiotic with *Zoanthus* sp. (Zoanthidea) 178–184

S. Fredericq and J.N. Norris. The structure and reproduction of *Dasya haitiana* sp. nov. (Dasyaceae, Rhodophyta) from the Caribbean Sea 185–196

S. Carty and E.R. Cox. *Kansodinium* gen. nov. and *Durinskia* gen. nov.: two genera of freshwater dinoflagellates (Pyrrhophyta) 197–204

M.E. Huber and R.A. Lewin. An electrophoretic survey of the genus *Tetraselmis* (Chlorophyta, Prasinophyceae) 205–209

J. Simons, A.P. van Beem and P.J.R. de Vries. Morphology of the prostrate thallus of *Stigeoclonium* (Chlorophyceae, Chaetophorales) and its taxonomic implications 210–220

R.S. Steneck and R. T. Paine. Ecological and taxonomic studies of shallow-water encrusting Corallinaceae (Rhodophyta) of the boreal northeastern Pacific 221–240

C.H. Hay. A new species of *Macrocystis* C. Ag. (Phaeophyta) from Marion Island, southern Indian Ocean 241–252

Wm. J. Woelkerling. The genus *Litholepis* (Corallinaceae, Rhodophyta): taxonomic status and disposition 253–261

C.H. Prosperi. Effect of light on bud development in *Nostoc cordubensis* (Nostocaceae, Cyanophyta) (Research Note) 262–265

In Memoriam 266–267

A note of thanks 268

Book reviews and publications received 269–270

Published 18 June 1986

VOLUME 25, NUMBER 3, SEPTEMBER 1986

J.M. Huisman. The red algal genus *Scinaia* (Galaxauraceae, Nemaliales) from Australia 271–296

J.P. Kociolek and E.F. Stoermer. Phylogenetic relationships and classification of monoraphid diatoms based on phenetic and cladistic methodologies . . 297–303

C. Wilhelm, I. Lenartz-Weiler, I. Wiedemann and A. Wild. The light-harvesting system of a *Micromonas* species (Prasinophyceae): the combination of three different chlorophyll species in one single chlorophyll–protein complex . . 304–312

C.J. Bird and E.C. de Oliveira F. *Gracilaria tenuifrons* sp. nov. (Gigartinales, Rhodophyta), a species from the tropical western Atlantic with superficial spermatangia 313–320

R.G. Sheath, M.O. Morison, K.M. Cole and K.L. Vanalstyne. A new species of freshwater Rhodophyta, *Batrachospermum carpocontortum* . . . 321–330

J.M. Noble. *Halimeda magnidisca* (Caulerpales, Chlorophyta), a new species from the Great Barrier Reef, Australia 331–339

J. Gaillard, M.Th. L'Hardy-Halos et L. Pellegrini. Morphogenèse du *Dictyota dichotoma* (Huds.) Lamouroux (Phaeophyta). II. Ontogenèse du thalle et cytologie ultrastructurale des différents types de cellules 340–357

Chr. Katsaros and B. Galatis. Ultrastructural studies on zoosporogenesis of *Halopteris filicina* (Sphacelariales, Phaeophyta) 358–370

R.W. Hoshaw. Sexual cycles and their implications for systematics in *Sirogonium* (Zygnemataceae, Chlorophyta) 371–378

Wm.J. Woelkerling and L.M. Irvine. The neotypification and status of *Mesophyllum* (Corallinaceae, Rhodophyta) 379–396

O.L. Reymond and B. Hickel. Large intracytoplasmic crystals in *Lyngbya* (Cyanophyceae) (Research Note) 397–400

M.J. Boavida and R.T. Heath. Phosphatase activity of *Chlamydomonas acidophila* Negoro (Volvocales, Chlorophyceae) (Research Note) . . . 400–404

P.F.M. Coesel and W. de Jong. Vigorous chemotactic attraction as a sexual response in *Closterium ehrenbergii* Meneghini (Desmidiaceae, Chlorophyta) (Research Note) 405–408

M.E. Huber, W.G. Wright and R.A. Lewin. Divalent cations and flagellar autotomy in *Chlamydomonas reinhardtii* (Volvocales, Chlorophyta) (Research Note) 408–411

Report 412–413

Announcements 414

Published 17 September 1986

VOLUME 25, NUMBER 4, DECEMBER 1986

L. de Vecchi and M. Grilli Caiola. An ultrastructural and cytochemical study of *Anabaena* sp. (Cyanophyceae) envelopes 415–422

G.T. Kraft. The genus *Gibsmithia* (Dumontiaceae, Rhodophyta) in Australia 423–447

M.R. Benson. A demographic study of *Dictyopteris undulata* Holmes (Dictyotales, Phaeophyta) at Santa Catalina Island, California 448–454

H. Nozaki. A taxonomic study of *Pyrobotrys* (Volvocales, Chlorophyta) in anaerobic pure culture 455–468

J. Correa, I. Novaczek and J. McLachlan. Effect of temperature and daylength on morphogenesis of *Scytosiphon lomentaria* (Scytosiphonales, Phaeophyta) from eastern Canada 469–475

M. Yoshizaki. The morphology and reproduction of *Thorea okadai* (Rhodophyta) 476–481

E.J. de Paula and J.A. West. Culture studies on *Pedobesia ryukyuensis* (Derbesiales, Chlorophyta), a new record in Brazil 482–493

E.F. Stoermer, Qi Yu-zao and T.B. Ladewski. A quantitative investigation of shape variation in *Didymosphenia* (Lyngbye) M. Schmidt (Bacillariophyta) 494–502

Y. Chida and K. Ueda. Mitochondrial number and form change during autospore formation in *Chlorococcum infusionum* (Schrank) Meneghini (Chlorococcales, Chlorophyta) 503–509

C.E. Tanner. Investigations of the taxonomy and morphological variation of *Ulva* (Chlorophyta): *Ulva californica* Wille 510–520

D.R.A. Hill and R. Wetherbee. *Proteomonas sulcata* gen. et sp. nov. (Cryptophyceae), a cryptomonad with two morphologically distinct and alternating forms 521–543

R.L. Moe. *Notophycus fimbriatus* (Solieriaceae), a new genus and species of marine Rhodophyceae from the Antarctic Peninsula 544–550

G.I. McFadden and M. Melkonian. Use of Hepes buffer for microalgal culture media and fixation for electron microscopy 551–557

V. Bullman and K.R. Roberts. Structure of the flagellar apparatus in *Heterocapsa pygmaea* (Pyrrophyta) 558–571

L.M. Brown, R.J. Smith, R.R. Shivers and A.W. Day. A re-examination of the surface scales of *Chrysochromulina breviturrita* Nicholls (Prynmesiophyceae) (Research Note) 572–575

D.L. Zmarzly and R.A. Lewin. Cation requirements for autotomy or retention of flagella by the marine alga *Tetraselmis subcordiformis* (Wille) Hazen (Prasinophyceae, Chlorophyta) (Research Note) 576–579

P.F.M. Coesel and S.B.J. Menken. Allozymic evidence for aneuploidy in *Closterium ehrenbergii* Meneghini (Desmidiaceae, Chlorophyta) (Research Note) 580–583

Report 584–585

Book review and publications received 585–586

Announcements 587–588
